

AERIAL SEA TO SEA RACE NOW CLAIMS NINE FATALITIES

Plane Crashes to Earth Late Yesterday in Wyoming and Two Airmen are Killed

Four Planes are Making the Return Flight Six More are Eligible

(By United Press)
New York, Oct. 16.—Crashing 200 feet to the earth in a mountain blizzard, the DeHavilland plane carrying Lieut. Franck Kerby and his observer, Lieut. Miller, in the trans-continental air race, dashed its occupants to death near Evanston, Wyo., late yesterday, extending the total deaths in the race series to nine fliers.

Kerby was instantly killed and Miller died soon after the crash. Of the planes making the return flight, four are still in the running. Capt. Smith returning to his home hangar in San Francisco arrived yesterday at Buffalo where his plane was destroyed by fire while in the hands of repair men. Major Carl Spatz is due to leave Rochester, N. Y., on his homeward trip westward today. Three eastbound fliers, led by the sky pilot, Maynard, were on their way today. Maynard was near North Platte early today. Six other pilots were eligible to start the return trip, three from each terminus.

Maynard Makes 3 Miles a Minute

(By United Press)
Sidney, Neb., Oct. 16.—Lieut. B. W. Maynard, leading the fliers in the transcontinental air race, started the third day of his flight to Mineola when he left at 7:15 a. m., mountain time, for North Platte.

Maynard maintains a three mile a minute clip. Yesterday between Cheyenne and Sidney he covered the 93 miles in 33 minutes. He hopes to reach the goal Friday.

Maynard Meets With Accident
Omaha, Neb., Oct. 16.—Lieut. B. W. Maynard was forced down by a broken crank shaft four miles west of Wahoo, Neb., according to reports here today. Maynard was not hurt. Army troops from Omaha were rushed to his assistance.

"I am not out of the race yet," Lieut. Maynard wired the United Press.

Wahoo is thirty miles west of Omaha, the next station to Yutan where the Martin bombing plane was wrecked and Lieut. Maynard wired Washington for permission to transfer the motor from the Martin machine to his own so he could continue the flight. The accident occurred at about noon. Without waiting for an answer from Washington Maynard and his assistant, Lieut. Cline, immediately started preparing for transferring the motor from the Martin plane to his machine. By working all night they hope to be ready to continue by daybreak Friday. With the exception of the motor the plane was not damaged. The pilot and his mechanic started to take out the motor on his machine at 2 P. M. and had it nearly ready to replace when he received his answer from Washington.

Engine Transfer Approved
Washington, Oct. 16.—Because of his excellent showing Lieut. B. W. Maynard will not be disbarred from further participation in the trans-continental air race the war department said this afternoon. The motor from a plane deserted by an officer who quit the race will be transferred to his machine.

West Bound Fliers Held Up
New York, Oct. 16.—West bound fliers were held up by bad weather

today. Major Carl Spatz, according to reports from Rochester will probably not be able to resume his flight until tomorrow. Lieut. Kiel, Lieut. Queens and Lieut. Worthington failed to get away before noon today on their return flight from Mineola to San Francisco and it was expected they would postpone the flight until tomorrow.

Pearson is Second
Reno, Nev., Oct. 16.—Lieut. Alexander Pearson who is second to Maynard in the air race, has passed Battle Mountain control it was reported here.

Fire Destroys 22 Summer Homes at Lake Minnetonka

(By United Press)
Minneapolis, Minn., Oct. 16.—Fire, caused by a defective flue, destroyed twenty-two summer homes in Groveland, Lake Minnetonka, at an estimated loss of \$75,000, early today. Six persons were seriously injured. The fire started on the Methodist assembly grounds and spread to the assembly and dormitory, burning nine cottages surrounding it, crossed the road and destroyed half of the homes in the summer colony. Mrs. Robert Cox, in whose home the fire started, suffered a broken leg and arm when she jumped from the second story. A great number of these people had moved to the lake in the summer and planned to remain this winter because of shortage of housing facilities in Minneapolis.

Pittsburgh, Pa., Oct. 16.—Court action to sustain "our right of free assembly," will be taken by a national committee of steel strikers through the council, strike headquarters announced following the refusal of city authorities to permit a mass meeting of strikers last night.

Agitators Seek to Control Strikers

HUGH BAILLIE,
(Written for the United Press)
Washington, Oct. 16.—Radical agitators are working to gain control of thousands of men on strike in America and of the thousands more threatening to strike, according to information received from confidential sources.

The purpose of these radicals is to lead the strikers into an industrial revolt that would border on a political revolt. Some of these are held responsible for unauthorized strikes. The industrial conference was looked upon by many as a dam after a flood of industrial difficulties.

Right of Col- lective Bargain- ing is Problem

Of the Industrial Conference Today Differences of Opinion Expressed

RALPH COUCH
(United Press Staff Correspondent.)
New York, Oct. 16.—The right of collective bargaining was the problem of the central committee of 15 of the industrial conference today. The conference was to convene at 2 P. M. to receive the committee's report. Information from the committee indicate there were differences of opinion within it.

President Gompers of the A. F. of L. has warned that failure to reach some agreement means that it will be easy for radicals to get control of labor. Gompers was able to direct some part today. He discussed the situation with his lieutenants who called to see him.

Near Agreement

Washington, Oct. 16.—The central committee of the national industrial conference is "very near" agreement on the report on collective bargaining, Chas. Edward Russell, a member of the committee announced today.

The conference yesterday directed the committee to submit such a report at 2:30 today.

Washington, Oct. 16.—The central committee of fifteen failed to agree on recognizing the principles of collective bargaining. Chairman Chadbourne announced to the national industrial conference when it convened this afternoon. Disagreement came over a resolution which the committee began to consider yesterday. The committee was in session until early midnight and again this morning. A final vote was taken before the conference assembled today.

President Better to Hold Cabinet Meeting

(By United Press)
Washington, Oct. 16.—President Wilson was better this morning, it was stated at the White House today.

A cabinet meeting may be called today Secretary Tumulty said, to consider the sugar shortage, the impending coal strike and the labor situation.

At a cabinet meeting Tuesday the sugar shortage was referred to Secretary of Agriculture Houston and the impending strike to Secretary of Labor Wilson.

Washington, Oct. 16.—The statement issued by the president's physicians at 1:55 today said:

"The discomfort for two days has been relieved to a very great extent. He had a good night. His temperature, pulse, respiration and kidney functions are normal."

Gompers Recovering From Nervous Attack

(By United Press)
Washington, Oct. 16.—Samuel Gompers was recovering today from an attack of nervous exhaustion which kept him in bed all day yesterday. He hopes to be able to attend the industrial conference session this afternoon.

WOULD APPLY GOLDEN RULE

Vice President Marshall Sees Remedy for Industrial Unrest

Kingston, N. C., Oct. 14.—Belief in "the old fashioned God-blessed American republic and its individualistic genius" while recognizing that era of individual rights has passed was expressed by Vice President Marshall today in an address at the county fair.

"I believe in a League of Nations," Vice President Marshall said, "but I want to preserve American institutions and the enemy of the inside is more menacing than the enemy on the outside just now. I am opposed to every man, set of men or class of men who knock at the door of congress and ask for special privileges which are not for the good of the whole people."

Mr. Marshall urged application of the golden rule as the best remedy for the prevailing industrial unrest.

Coal Stocks are Very Low

Middle West Consumers Have Only Three Weeks' Supply on Hand—Strike Will Make Hardship

(By United Press)
Chicago, Oct. 16.—Coal consumers of the middle west have an average of three weeks' supply on hand.

That was the estimate made today by leading coal mine operators and dealers here.

If the strike of miners called for Nov. 1 continues for more than three weeks there is bound to be intense suffering according to the views expressed by leading coal men. Hospitals have from ten days to one month's supply. Schools can continue for one month without fuel. Railroads have the smallest supply in history except the winter of 1918. Their work will be hampered seriously within a few days after the strike is called.

THIEVES GET \$100,000 IN JEWELS FROM MRS. BRANDEIS

New York, Oct. 15.—The theft of jewels valued at between \$100,000 and \$150,000 from the apartment of Mrs. Leyla Brandeis was reported to the police today. Mrs. Brandeis is the widow of H. H. Brandeis, who with two brothers founded the department store in Omaha, Neb., which bears that name.

According to the list supplied the police the stolen gems included a large rope of pearls, a diamond necklace, several diamond pins, rings and other articles.

Battle in the Riga Districts Continues

Lettish Troops are Holding Their Own Against Germans and Russians

(By United Press)
Mitau, Russia, Oct. 16.—The battle in the Riga district continues with intense fighting. The battle line is growing. German troops widened their zone Tuesday when they captured Dvinsk. Lettish troops are holding their position on the other side of the Dvina river north of Riga which they succeeded in crossing after persistent fighting. The Germans are not answering the cannonading although the Letts continue heavy bombardment of the German position.

The Men Were Russians and Austrians, and are Held in Newly Built Stockade

Gary, Ind., Oct. 16.—Deportation warrants were sworn today for ten of the aliens arrested in the raids on red centers by troops. The men were Russians and Austrians. All of the men held, according to Col. Mapes, are aliens. German flags, red flags and other symbols of revolutionists and alien governments were found in the raids. Very few evidences of Americanism were discovered.

The prisoners are in a newly completed stockade today. It is built of rough pine and the bunks are arranged the same as in a lumber camp with straw for mattresses. Tin dishes were supplied by army officers.

War Time Ban Against Immigrants

Voted Overwhelmingly by the House To Keep Out Radical Agitators

Washington, Oct. 16.—With government reports that alien radicals are urging strikes in all parts of the country, the House today voted overwhelmingly to continue for one year after the conclusion of peace the war time ban against entrance into the United States of undesirable foreigners.

At the request of Secretary Lansing a bill was passed continuing war time transportation restrictions under which aliens are requested to submit their complete record and undergo thorough investigation before being permitted to embark. The foreigners must be able to prove they are coming to the United States for legitimate purposes.

The house action was taken after the state department had let it be known that consular reports show large numbers of radicals already collected at foreign ports waiting to come to the United States at the conclusion of peace.

Wants Sen- ate to Hold Night Sessions

And Dispose of Treaty Speedily—Opposes Shantung Amendment

Washington, Oct. 16.—Demanding that the senate hold night sessions to wind up acceptance of the peace treaty was made by Senator Hale of Maine, a republican, in a speech today.

"The country wants action and wants it now," Hale declared.

"I think that everybody in the senate and in the country is sick and tired of the whole debate. All of us know exactly how we are going to vote. If we really want to dispose of it, the way is to hold night sessions and force the matter to a conclusion."

Hale expressed warm disapproval of the Shantung vote arrangement in the league of nations and declared he will oppose the Shantung and the Johnson amendments, but will support reservations covering them.

Miss Clark there advertised a cameo pin lost and it was found very quickly.

Mrs. M. D. Stoner has had remarkable success growing peas. On Aug. 20 she planted a second crop and the family smiled knowingly, thinking she would never have a harvest. On Oct. 5 the vines yielded peas for the dinner table and all the doubting Thomases were glad to push out their plates for a second helping. With such an example of Crow Wing county soil possibilities, Mr. Stoner said he wouldn't say a word if Mrs. Stoner now proposed to raise peaches, oranges and bananas. Anything now seems possible in the banana belt of Brainerd which had no frost until late October.

The Locomotive Electric Washer embodies many valuable features not found in any other washer. It is built to give satisfaction, and the materials used in its construction are the best that money can buy.

The movement of the boiler causes a violent agitation of the water in the form of a figure 8. In this way, forcing the water through the fabric cleansing thoroughly and quickly.

The movement of the boiler and the heat under it, form a forceful vacuum and steam action, hastening the cleansing process, sterilizing the clothes at the same time.

The Locomotive Washer is simple in construction, easy to operate, and there is nothing to get out of order. Built from a woman's point of view.

Mrs. A. M. McQuaig of New York City will be here soon to demonstrate the machine.

Old Bridge Stood for Centuries.

The new London bridge was opened
on August 1, 1831. This replaced the
celebrated old bridge, built more than
eight centuries before. It had 18 solid
stone piers, with bulky stone arches
and was covered from end to end with
buildings. On the "Tailor's gate," at
one end, the heads of tra's were
shown. It was removed on...
its obstruction to navigation.

Yum! Yum! Yum! Yum!

Now is the Time to Start Eating Real New Orleans Molasses!
Be Sure to Get the Right Kind

THE season's on! Your grocer has just received
a fresh shipment of GOLD LABEL BRER
RABBIT Molasses. It is waiting for you. Pan-
cakes and BRER RABBIT tomorrow morning!

But this is mighty important—Say these four
words: "Gold Label BRER RABBIT" to your gro-
cer. Otherwise you might get ordinary molasses.

Gold Label BRER RABBIT is the finest, the
purest, the most delicious high-grade New Orleans
Molasses. It is the kind old folks recall as having
eaten on sliced bread when they were little tots.

It is the kind most folks have been "longing"
for but thought it was impossible to get these days.

But now your grocer sells it.

Your grocer also sells Green Label BRER
RABBIT. This is a specially selected molasses for
cooking and baking.

Remember—The GOLD LABEL for table use and high-
grade baking—The Green Label especially for baking. It
costs less.

BUSY, BEAUTIFUL BRAINERD

Brainerd today presents the busiest appearance in its history. On all sides there is activity. At the shops a blue shed has been added. Up town there is the new depot, the water tower, the digging of water mains, the \$800,000 gallon reservoir construction work, the W. E. Lively garage, the new court house. Numerous residences are being constructed.

Next year when the main laying will be finished, will see much street improvement work carried on.

Brainerd will have one of the finest depots in the west and the town will look its best and prettiest as one steps from depot to the city. As first impressions count a good deal, Brainerd can rest assured that every stranger will be most favorably impressed. It is the first time city, railway, all interests here joined in a general beautification and up-building of the city in that section, and the results attained will be surprising, even to the old inhabitants.

Laundry Workers Strike Inconveniences Male New Yorkers

(By United Press)

New York, Oct. 16.—With the last collar in the bureau drawer—and that one of ancient time, Father Knickerbocker today began to look for shirts, and wondering what he will wear, owing to the laundry strike for the last ten days. The laundry man did not bring back last week's laundry nor did he call for the one this week. From the old style to soft collars and celluloids the city male population finds itself in a predicament today.

One laundry man estimated there are six million dirty collars and two times as many soiled socks in New York.

OPTIMISM RULES WHITE HOUSE AS WILSON IMPROVES

President is "Getting Better," Eager for News From Outside, Physician Reports

Washington, Oct. 15.—Absence of any new complication in President Wilson's illness brought from his bedside late today the assurance that he is "getting better." Elimination of the recent annoyance caused by a slightly enlarged gland has removed the only outstanding obstacle to his convalescence and about the White House there was manifested a decided atmosphere of optimism.

With the exception of the news furnished him by Mrs. Wilson, the President has learned very little of national and international developments although he is given daily a general summary of events. He has at times expressed a keen desire for more comprehensive reports, but Rear Admiral Grayson, his personal physician, has succeeded in keeping away from his patient, information that might prove trying to his nerves.

The president's appetite is reported to be as good as expected and a recurrence of the glandular trouble is not anticipated. Only a moderate rate of recovery is looked for and indications, official and otherwise, are that the improvement announced today may be continued.

Only the following brief statement was issued by Rear Admiral Gray-

son, the President's personal physician, at 10:30 o'clock tonight. "The President has had a satisfactory day."

The headache from which he was suffering early in the day, it was learned, had disappeared. President Wilson, despite his illness, remembered that today was Mrs. Wilson's birthday. In fact, he made preparations for it several days ago, for it was learned tonight that he then sent out a member of the White House staff to purchase a gift. Today he presented the remembrance to her.

TREATY RATIFICATIONS EXCHANGE FRIDAY SEEN

Paris, Oct. 15.—The exchange of ratifications of the peace treaty between the Allied powers and Germany will take place at the French foreign office Friday or Saturday, according to the Echo de Paris.

The copy of the German peace treaty signed by King George after ratification by the British parliament has been received in Paris, the Petit Parisien announced today.

DOUBLE SLAYING AT BUTTE, MONT.

Jealous Husband Kills Divorced Wife and Himself; Five Children Left Victims

Butte, Mont., Oct. 14.—Believed to have been prompted by jealousy, Joseph Grandis, 38, killed his divorced wife, Edith Grandis, 30, and then took his own life here early today. The tragedy took place at the home of the woman, where the bodies were found this afternoon by neighbors.

Five children are left victims of the tragedy. According to reports, Mrs. Grandis divorced her husband Sept. 27 and was engaged to marry another man living in Butte. Grandis was in Terry, S. D., and on hearing of his former wife's intention to remarry, it is said he returned here Sunday and failing to effect a reconciliation, took the lives of both.

Rome, Oct. 16.—Foreign Minister Tittoni, in a royal decree issued today, was appointed as Italian representative on the council of the league of nations.

OMAHA LYCHING IS REPORTED CONFESSED

Omaha, Neb., Oct. 15.—Leonard Webster, advertising designing artist, arrested here for investigation in connection with the lynching of Will Brown, Negro, burning of the court house, and attempted lynching of Mayor Smith in the riot of Sept. 28 has confessed his complicity according to the chief of detectives.

When shown the gun with which he is alleged to have struck the mayor on the head, Webster cried, "that's it," then fainted in his cell. Several shots had been fired out of the gun which Webster is said to have confessed he fired in the body of the Negro.

Webster is employed by the Omaha World Herald and is alleged by police to have taken the gun from the desk of another employee of the paper.

LOWER FLOUR PRICES FAVORED BY BARNES

New York, Oct. 15.—Julius Barnes, director of the United States Grain corporation, for the last two weeks has been seeking an interview with President Wilson to discuss the recent recommendations for lifting all export and import embargoes on grains and flours. It was stated at the grain corporation offices here late yesterday.

The general financial situation and transportation difficulty probably will aid in preventing violent dangerous activity, without government restrictions. It was declared moreover, the American consumer, Mr. Barnes considers, now has a right to any lower prices for flour he may be able to get through the importation of Canadian wheat.

AMERICAN TROOPS WILL BE SENT ABROAD

Washington, Oct. 16.—American troops which will form part of the force to occupy the province of Silesia, if such action is ordered by the supreme council in Paris, will sail this week from New York on the transport President Grant, Secretary Baker announced today.

ROADS GO AHEAD TO REPLACE PRE-WAR SCHEDULE, REPORT

Indianapolis, Oct. 15.—Many railroads in the United States are reluctant to replace passenger service canceled during the war on the ground that it is unprofitable, delegates attending the meeting of the National Association of Railways and Utilities Commissioners were told by A. J. Maxwell, of North Carolina, in presenting the report of the committee on railroad service, accommodations and claims.

Walker D. Hines, director general of the railroad administration will address a banquet tonight.

The new officers of the Association elected today are:

Walter A. Shaw, Illinois, president; J. A. Perry, Georgia, first vice president; Carl D. Jackson, Wisconsin, second vice president; James B. Walker, New York, secretary, re-elected; and L. S. Boyd, Washington, D. C., assistant.

TRIES TO BUY CASTLE

Former German Crown Prince May Live Near Father

Amsterdam, Oct. 14.—The former German crown prince is trying to purchase the Castle of Echeld, in the province of Gelderland, according to the Handelsblad. This is situated near Tiel and about 20 miles from Amerongen and Doorn. Because of the delay in repairs and rearrangements at Doorn, it is believed that the removal of the former emperor will be postponed until early in 1920.

William Hohenzollern now is permitted to motor through Doorn and Amerongen territory.

Adam the Bachelor.

Was Adam a vegetarian? A passage in the Talmud says he was, but in another place we read that he was created late on Friday, so that he might immediately sit down to a sumptuous Sabbath feast. There is a tradition preserved in the Talmud that Adam was a gay blade before Eve was formed from his rib; that winged Peris fed him on the daintiest of food and filled his goblet with the choicest wines. Then Eve came along and spoiled it all. It is a pity that important questions like this one were not definitely settled long ago.—Philip Hale in Boston Journal.

FROM CHERRY-BLOSSOM LAND The Japanese Give Good Example

It is a proverb of Cherry Blossom Land that beauty of face and figure depend on womanly health.

What is it that makes our American women often pale, sallow-faced, with dark circles under the eyes, and very often old at forty-five when they should be in their prime?

Women suffer in girlhood from backache, spine-ache and headaches, followed by irregularities and as a result diseases of the womanly organs are more common than any one but a physician in active practice could suppose.

After long experience in the treatment of women's diseases, Dr. Pierce evolved a vegetable tonic and corrective which he called Dr. Pierce's Favorite Prescription. This is a purely vegetable preparation, without a particle of alcohol contained in it.

When a woman complains of backache, dizziness or pain—when everything looks black before her eyes—a dragging feeling, or bearing-down, with nervousness, she should turn to this "temperance" herbal tonic. It can be obtained in almost every drug store in the land and the ingredients are printed in plain English on the wrapper. Put up in tablets or liquid. Dr. Pierce, of Invalids' Hotel, Buffalo, N. Y., will send a trial size of the tablets for ten cents.

Dreaming of Cats.

With the exception of black ones, it is said that to dream of cats is unlucky. If the animals scratch the dreamer must beware of a rival in love. To dream of chasing a cat means disappointment over something.

POULTRY TOUR AT BARNUM OCT. 18

There will be a big poultry demonstration at Barnum, Oct. 18. This will be held at the Barnum Poultry Demonstration Community.

Some facts about good chickens show that 20 hens equal a dairy cow. Five cows and 100 hens give a monthly income of \$100. Selling off cockrels almost pays for the cost of chickens and cost of feed until pullets are laying.

There are, in Barnum village, 250 human beings and 37,750 White Leghorn chickens or 161 per capita. On their poultry tour Oct. 18, those interested in poultry growing are invited to attend the poultry demonstration and visit the poultry farms at Barnum. The tour starts at 10 A. M.

TROMMALD SCHOOL ELECTION RESULT

Trommald, Minn., Oct. 16—A special school election was held in Trommald for the purpose of building a new school for Trommald, and it proved that one-half of the voters favored a new building and the other half did not. The vote was 31 for it and 32 against.

The old school building will be repaired, which will cost the district \$10,000.

AMERICAN LEGION CHARTER ARRIVES

The local post of the American Legion known as the Sidney Carl Hanson Post, No. 255, has received its charter. It now has a membership of 125 signed and paid members. More are daily enrolling. Milton Mahlum is chairman and Dick Johnson is secretary of the post.

CHARLES DAVEAU

Well Known Fort Ripley Man Passed Away, Leaves Relatives in Brainerd and on Range

(Cuyuna Range Miner)

Joseph Daveau of Ironton, was notified by telegram that his father, Chas. Daveau of Fort Ripley, was seriously ill, and he immediately left for his father's bedside. On Monday morning a message was received by Mrs. Daveau that Chas. Daveau died that morning.

Mr. Daveau was 78 years old and a widower, his wife passing away a year ago. He has made his home in Fort Ripley for a number of years, and is well known in Ironton, as he occasionally visited his son Joseph here. He was a kind-hearted man and loved and respected by all who knew him. The cause of his death is not known at this time.

Mr. Daveau leaves to mourn his passing away, six children: Joseph Daveau, of Ironton; Chas. Daveau of Brainerd; Mrs. Gravel of St. Mathias; Hector Daveau of Fort Ripley; Mrs. Duett and Mrs. Pelkey of Belle Prairie.

The funeral services will be held in the Catholic church at Belle Prairie, with interment in the cemetery there.

GLASS OF SALTS CLEANS KIDNEYS

If your Back is aching or Bladder bothers, drink lots of water and eat less meat.

When your kidneys hurt and your back feels sore, don't get scared and proceed to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 600 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; also to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

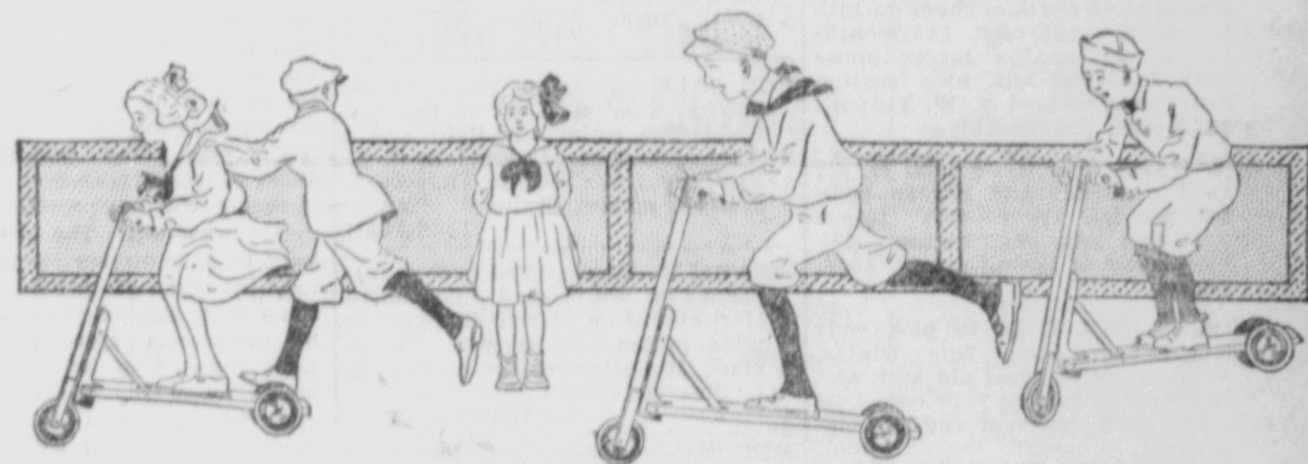

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

CONGRESS WORKING ON TWO PROBLEMS

BOTH HOUSES ARE ENDEAVORING TO FRAME LEGISLATION FOR RETURN OF RAILROADS.

MAY DELAY IT UNTIL SPRING

Budget System for the National Government is the Other Question, and the Demand for Its Solution is Insistent.

By JAMES P. HORNADAY.

Washington.—While the senate is trying to dispose of the treaty of peace with Germany, congress as a whole is finding time to give some thought to two subjects in particular, railroad legislation and a budget system for the government. In committee in both senate and house some real progress is now being made with the framing of legislation under which the railroads will be returned to their owners. But it is doubtful, say the men who are engaged in formulating this legislation, whether it will be finally disposed of before next spring.

The plan of the senate committee on interstate commerce is to be ready to report a railroad return bill as soon as the treaty is out of the way. This may mean that a bill will be submitted to the senate by the first of next month, but senators as a rule are not very sanguine that such good progress can be made with the treaty. Unless the house committee on interstate and foreign commerce shall change its mind it will report its conception of what railroad legislation should be before the end of this month. Then if the hopes of the house leaders are realized the house will take a recess until about the middle of November.

Each House Has Railroad Bill.

This would mean that so far as the house is concerned, railroad legislation would not receive much, if any, attention before the opening of the regular session on the first Monday in December. To a considerable extent the senate committee on interstate commerce and the house committee on interstate and foreign commerce are working along the same lines in preparing railroad legislation, but it is foreseen that each branch of the legislative body will pass its own bill and that the responsibility for perfecting the legislation will eventually have to be assumed by a conference committee representing the two houses.

The only thing definitely settled about railroad legislation at this time is that it will not provide for government ownership. The roads will go back to their owners for private management under stricter federal restrictions than existed prior to the war, but the precise nature of these restrictions remains to be determined. It seems reasonably certain that a federal transportation board will be created, and that it will exert broad powers affecting operation of the roads. These powers, it seems likely, will have to do particularly with the common use of terminals and the pooling of equipment. The rate-fixing power will undoubtedly be retained by the interstate commerce commission.

In his message to congress at the opening of this special session President Wilson indicated that he would return the railroads to their owners at the end of this calendar year unless congress in the meantime should make provision for their return. A good many things have happened since that message was written, and it is generally understood that the president will await the action of congress.

Demand for Budget System.

It is not the first time congress has been confronted with a demand for legislation creating a federal budget system, but there is an insistence about the demand this time that was never noticeable before. The subject has recently been taken up in both senate and house in committee. The leaders in congress realize that if the new system is to be introduced the necessary legislation should be enacted as soon as possible. Under existing law it will be necessary for the secretary of the treasury to submit the estimates for government expenditures for the fiscal year beginning July 1, 1920, to congress when it meets in regular session in December. So if the government is to get the benefit of the budget system in 1920 the system must be provided between now and the first Monday in December.

The recent appearance before the committees working on the new system of former President William H. Taft created additional interest in the subject. The secretary of the treasury, Mr. Glass, has also told the committees that the government's financial business must to some extent run wild unless a budget system is provided.

The advocates of a budget system are asking for the legislation chiefly on the ground of economy. They express the view that it would result in the reduction of taxation, that it would also result in a more efficient government administration by the elimination of duplication, waste and extravagance. Furthermore, they have pointed out that it would give to the people a clear conception of the financial operations of their own government. Secretary Glass said to the budget committees that it is a good time to remember that there can be no spending by the government without paying by the government, and that the government cannot pay except out of the pockets of the people.

FOOD FOR CREW OF AIRSHIP

Most Careful Consideration Had to Be Given to Proper Nourishment of Daring Navigators.

The average housewife would hold up her hands in horror at the thought of cooking and providing for thirty men during a four days' aerial voyage.

Yet this was only one of the tasks, and by no means the most important, which confronted the organizers of the R 34's trip to America and back, remarks London Tit-Bits. When it is remembered that the men had to conform to the rigid limitations of the accommodation, the task assumes even more formidable proportions.

While the provisioning of the crew takes a back place, relatively, when compared with the navigation and other scientific arrangements, diet was, nevertheless, a subject requiring the most careful consideration. The digestive organs, if impaired, react at once upon the nervous system, and in an enterprise of such a daring character as the flight nerves had to be tenderly nourished.

The medical department of the air ministry was early consulted and devised a menu consisting mainly of meat, bread, cheese, chocolate, tea, eggs, and potatoes.

Then came the problem of cooking, and the R 34 has surely the strangest kitchen existing. Instead of fixing an electrical or other usual type of stove, the hot exhaust gases from one of the motor engines were trapped, and led around a receptacle shaped for boiling or frying, the heat thus obtained being sufficient to meet all the requirements. There were three of these boilers provided altogether—one in the fore car to hold three pints, and one in each wing car to hold one and a half gallons. By means of these, soups and hot sustaining drinks were able to be made.

The type of flying clothing provided for the crew is another example of the attention paid to detail to give the flight every chance of success. Each member of the ship's complement was provided with two complete suits of silk underclothing. Over this, woolen gear, similar to that provided for submarine crews and divers, was worn.

It All Depends.

Get the Habit of Drinking Hot Water Before Breakfast

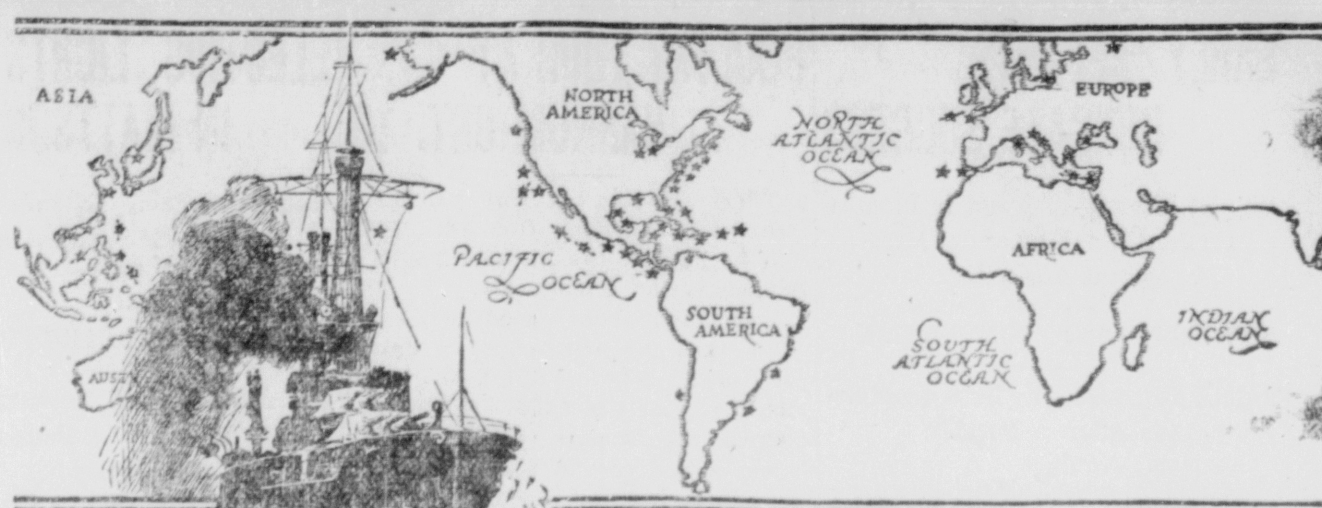

Says we can't look or feel right with the system full of poisons.

Millions of folks bathe internally now instead of leading their system with drugs. "What's an inside bath?" you say. Well, it is guaranteed to perform miracles if you could believe these hot water enthusiasts.

There are vast numbers of men and women who, immediately upon arising in the morning, drink a glass of real hot water with a teaspoonful of limestone phosphate in it. This is a very excellent health measure. It is intended to flush the stomach, liver, kidneys and the thirty feet of intestines of the previous day's waste, sour bile and indigestible material left over in the body which if not eliminated every day, become food for the millions of bacteria which infest the bowels, the quick result is poisons and toxins which are then absorbed into the blood causing headache, bilious attacks, foul breath, bad taste, colds, stomach trouble, kidney misery, sleeplessness, impure blood and all sorts of ailments.

People who feel good one day and badly the next, but who simply can't get feeling right are urged to obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to make anyone a real crank on the subject of internal sanitation.

Just as soap and hot water act on the skin, cleansing, sweetening and freshening, so limestone phosphate and hot water act on the stomach, liver, kidneys and bowels. It is vastly more important to bathe on the inside than on the outside, because the skin pores do not absorb impurities into the blood, while the bowel pores do.
